DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3 and 7-21, drawn to method of welding and apparatus for welding, classified in class 156.
- II. Claims 4-6, drawn to fuel injector, classified in class 239, subclass 585.4.

The inventions are distinct, each from the other because of the following reasons:

Inventions described in groups I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are clearly separated into two different groups.
